

# Growing Spring Bulbs Indoors

Plant between mid-September and the end of October.

**1**

## *Get a Container*

*Make sure there is a hole for drainage.*

**2**

## *Add Soil*

*Place a minimum of 2" at the bottom of the container.*

**3**

## *Add Bulbs*

*Place the bulbs closely together, but not touching. Then fill container with additional soil.*

**4**

## *Add Bulb Fertilizer*

*Sprinkle the fertilizer on top and then lightly water.*

**5**

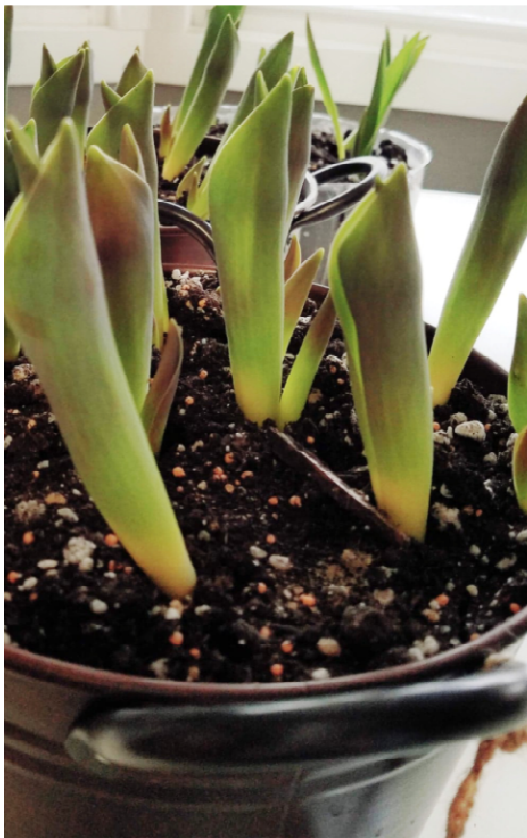

## *Chill Your Container*

*Keep your container between 35 and 45 degrees for 16-18 weeks.*

**6**

## *Wake Your Bulbs*

*Bring your bulbs indoors 3-4 weeks before blooms are desired.*
